Congratulations On Your New WaterRower!

Prior to the arrival of your WaterRower, feel free to review our library of resources, including topics such as set-up, product care, rowing tips and workout ideas.

If you have any questions for our team regarding your new WaterRower, please send an email to info@waterrower.com or call +1 (800) 852-2210.

We hope you enjoy your WaterRower for many years to come!

---

**PREVIEW YOUR OWNER’S MANUAL**

Prior to the arrival of your WaterRower, you can familiarize yourself with the Owner’s manuals on our service site waterrowerservice.com. While you’re there, browse around to learn more about how your WaterRower works.

**HOW TO FILL YOUR WATER TANK**

View our video on how to fill your water tank. We recommend municipal tap water for your water tank. If you do not have access to municipal water, we suggest using bottled water. You will need approximately 3½ gallons to fill the tank to the desired water level.

**THE BEAUTY OF NATURAL WOOD**

You will be happy to know that we use sustainably sourced Appalachian hard wood in the construction of your WaterRower. Information regarding the uniqueness of each WaterRower model can be found on our materials page.

**HOWTOROW.COM**

Whether you’re an expert rower or just starting out, visit HowToRow.com to learn how to maximize the effect of rowing on a WaterRower by reviewing technique, workout programs and other useful information.
